

GP Practice Online Access

GP online access is the use of online forms as another route for patients to contact their GP practice.

Patients can contact the practice for non-urgent requests during the day, anytime between 8am to 6.30pm, by filling out an online form on our website: www.redhousesurgery.co.uk

Online Consultation Requirements

All GP practices are required to have their online consultation system available throughout core hours for non-urgent appointment requests, medication queries, and admin requests.

Other Ways to Contact Us

As well as the online forms patients can continue to telephone or visit the practice in person and speak with our care navigators throughout core hours.

Our Commitment to You

We work hard to try and accommodate patients with appointments with a range of health care professionals within our team or signposting to other health workers or organisations such as community pharmacies, physiotherapy, and the voluntary sector.

Thank you for your support and if you have any queries please do contact a member of the practice team.
